Star Fluid

Star Fluid is the new sliding system for wardrobes with external overlapping doors, equipped with latest-generation soft damper stoppers that use Fluid technology. The new system is suitable for wardrobes with two or three doors, ranging in thickness between 22 and 50 mm, and a maximum weight of 80 kg.

In technical terms, the new Star Fluid system introduces some special elements: the sliders are considerably easier to adjust, while the soft damper stoppers use the new Fluid technology, resulting in extremely smooth opening and closing movements. Aesthetically, the Star Fluid system has a new front cover that is able to hide Fluid dampers, thanks to an aluminium band, which can be coloured or painted as desired.
