Pop Series

Pop Series integrates the best Magic2 technology, completely hiding the sliding door from view, and thus allowing to enhance the design of the chosen door to the maximum.

Furthermore, the colors of the track can be completely customized on request, guaranteeing a unique and personal style. Pop integrates the Magic2 system technology, and it's an extremely versatile system: the series allows to use economical industrial laminated panels with fixed standard height.

With Pop Series, it's possible to realize standard doors with thickness from 38 to 44 mm.
